Update from your Board Chair

2024 Harvest

Harvest is well underway, and this year's vintage will definitely be a quality year for local Ontario grapes. We know that many growers are facing a challenging season. Our numerous conversations with the Government of Ontario, MPP's and bureaucrats have focused on establishing a baseline conversation and solutions we feel are needed for today and future Ontario grown grapes.

We are committed to working with our partners at the Wine and Grape Industry Sector Table on solutions that advance our mission to ensure Ontario grown is first on the label.

Growers did not create the current artificial market conditions being used against them, but in our deliberations with the Government we have asked them to fix this issue for our members. We continue to ask the government to mitigate the financial impact of the losses growers are facing, and commit to a long-term strategy to remove unwanted and underpurchased varieties.

Our message to the government has been consistent and clear "all new retail opportunities must focus on selling more 100% Ontario wine". Building this model together will benefit our growers, wineries and the economy of our province. We look forward to seeing all growers on Friday, November 15th for grape payment day.

Grape Growers of Ontario welcomes Maria Zegarac to the Grape Growers of Ontario's team

Following Mary Jane Combe's retirement, we are delighted to announce that Maria Zegarac has joined as the new General Manager.

Maria has 30 years of experience across both the public and private sectors. She is a diligent and creative leader with a strong track record of strengthening organizations.

"Maria understands how to strengthen and grow organizations at the operational level. Her experience and skills will assist our organization as we navigate the future. "We are delighted to have Maria head up our day-to-day operations, and strengthening the GGO team for our passionate and hard-working growers" said CEO Debbie Zimmerman.

As General Manager, Maria will assist with GGO's daily operations.

"Adding Maria's support and experience to the GGO team will allow our CEO to concentrate her ongoing efforts on critical government relations and advocacy work." said Board Chair, Matthias Oppenlaender.

Maria comes to the GGO from her previous role as Executive Director of Hopewell Children's Homes in Guelph, where she spearheaded significant growth in the organization's capacity and revenue.

A graduate of Brock University, Maria furthered her education at the Rotman School of Management and is a Chartered Professional Accountant. She actively contributes to her local community, chairing the board of Re-imagine Ontario in Oakville and having sat on the boards of Workforce Planning Hamilton and Banyan Community Services.

Thank you Richard Linley Ontario Craft Wineries CEO and President

GGO thanks Richard Linley for his commitment to the Ontario grape and wine industry. Richards calm thoughtful guidance on so many issues was always welcomed. The GGO will miss working with you. We wish you all the best in your new role with the Canadian Beverage Association.

Legislative Wine Tasting

The Grape Growers of Ontario with the Honourable Speaker of the Legislature and MPP for Wellington-Halton Hills, Ted Arnott, hosted the 45th Annual Wine tasting event at Queen's Park on Wednesday, October 23rd. We are pleased to announce that the following have been chosen as the official wines of Ontario's Legislative Assembly for 2025.

Sparkling Wine: 2019 Traditional Sparkling Rose by Fielding Estate Winery, Beamsville Bench
Red Wine: 2022 Cabernet Franc by Fielding Estate Winery, Beamsville Bench
White Wine: 2022 Lailey White by Lailey Winery, Niagara River

Left to right- Honourable Speaker of the Legislature and MPP for Wellington-Halton Hills, Ted Arnott, Heidi Fielding and Drita Bastin.

Left to right- Honourable Speaker of the Legislature and MPP for Wellington-Halton Hills, Ted Arnott and Thomas Reid.

2024 Grocery Innovations Canada Trade Show and Conference

Grape Growers of Ontario, along with invited wineries, participated in the Grocery Innovations Canada Trade Show and Conference in Toronto.

Left to right Andrew Wilson - Oxley Winery, Agriculture Minister Rob Flack, Debbie Zimmerman - GGO CEO, Joe Schenck - King & Victoria Winery, and Daniel Lafleur - Tawse Winery.

Grape Payment Day - November 15, 2024

Friday, November 15th, 2024

9:00 am - 2:00 pm

GGO Board Office located at 1634 South Service Road in St. Catharines

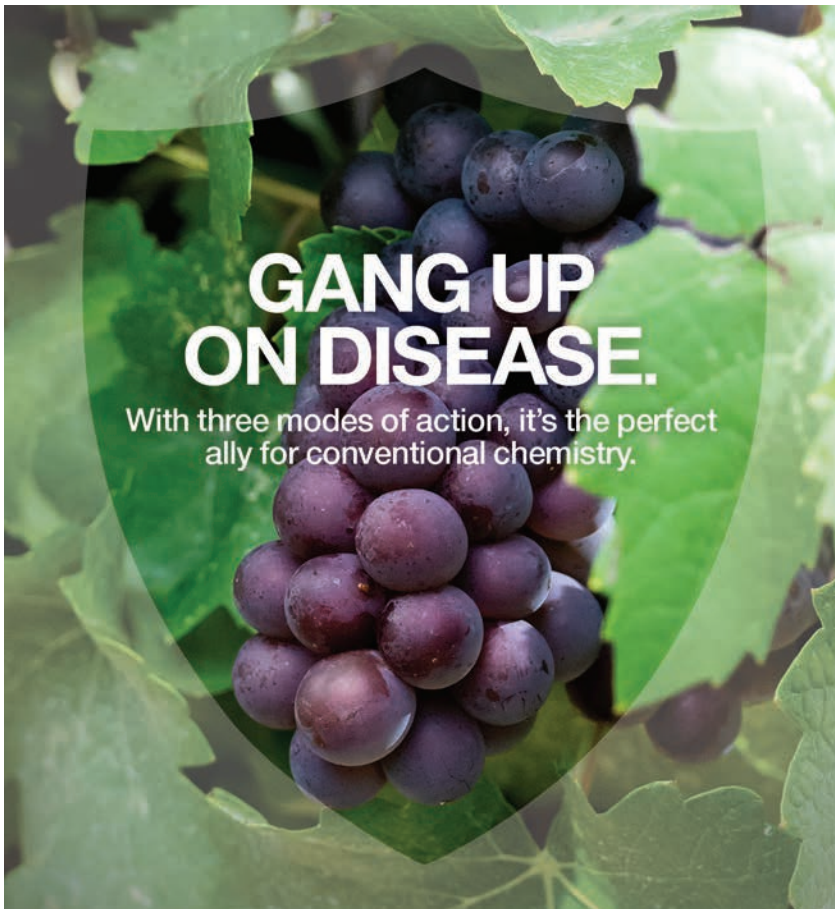

Processors are reminded that any grapes harvested on or before November 7th, including grapes left hanging for Icewine, must be paid for on Grape Payment Day, Friday, November 15th.

Please enter all weigh bills in eGrape as soon as possible. Select the "Request Report" button or contact the GGO for your processor summary statements. All grower cheques must be delivered to the GGO Board Office in person or by courier on or before Monday, November 11, 2024 at 4:30 pm.

Electronic Funds Transfer allow for grape purchasers to pay producers using direct deposit or interac e-transfer. Verification of the payment amount and payment method is to be registered with the GGO no later than the 6th day of November, and a copy of the electronic payment statement is to be filed with the Grape Growers of Ontario on November 15th verifying the payment amount for grapes that were purchased from the producer, including grapes left on the vine for late harvest juice. Growers will receive a copy of their grower statement regardless of payment method.

Cheques that are not picked up by 2:00 pm will be sent by Canada Post. If you would like your cheque(s) held for pickup please call the office at 905-688-0990 by 2:00 pm on Thursday, November 14, 2024.

Please call Keara White at 905-688-0990 ext 221 for assistance.

Grape King Installation - Grape and Wine Festivities

Congratulations to Niagara-on-the-Lake grape grower Jeff Duc and his family. Jeff was crowned the 2024 Grape King on September 18th, following the Celebrity Luncheon with guest speaker Jon Montgomery.

Past and present Grape Kings rode the float in the 72nd Niagara Grape and Wine Grande Parade, and the Next Gen battled it out at the Mayors Grape Stomp.

Lawrence Barringer,
Pennsylvania Department of Agriculture, Bugwood.org

Spot it? Snap, catch and report it

Spotted lanternfly (SLF) is present in the United States and getting closer to the Canadian border. It could be devastating for Canada's wine, fruit and forest industries.

Building Ontario for you

Ontario's 2024 Fall Economic Statement continues to invest in rebuilding the provincial economy while keeping costs down for workers and families.

Minister of Finance Peter Bethlenfalvy released the [2024 Ontario Economic Outlook and Fiscal Review: Building Ontario for You](#). The government continues to take a fiscally responsible approach towards building the critical infrastructure our growing communities need, reducing gridlock, and making life more affordable by keeping taxes low and putting more money back in your pocket.

Vineland publishes insightful Innovation Report for 2024-2025

Source: The Grower

Vineland Research and Innovation Centre (Vineland) has published its annual report, chock full of insight into projects underway. Dr. Ian Potter, president and CEO, says, "We remain committed to advancing our strategic direction, building on past successes and addressing areas for improvement to create long-term value for Vineland, our employees and our stakeholders while contributing positively to society, the environment and the economy."

The 2024-25 Innovation Report's theme this year is "Sustainability" and it showcases Vineland's support to the industry and government stakeholders and the importance of innovation to drive sector sustainability.

Government estimates show Beer Store market share plunging while LCBO's share to soar

The LCBO is chugging The Beer Store's market share. The Beer Store's percentage of Ontario's alcohol market is expected to plunge to 15 by 2026-27 from 41.1 per cent this year as a result of expanded alcohol retailing, according to provincial government estimates released Thursday.

The LCBO's share, meanwhile, is forecast to grow to 77.1 per cent from 51.2 per cent, largely as a result of its growing role as a wholesaler to new retail outlets. The estimates, released as part of the government's fall economic statement, were prepared by the ministry of finance, based on information provided by the LCBO.

Growing Future Opportunities Initiative, Wine Grapes allocated funding at 83%

The intake period is open, and we implore you to apply for funding. Applications are accepted on a first-come, first-served basis until funding has been fully allocated or the intake period closes, whichever comes first.

Last fall, the Canadian and Ontario governments announced funding of up to \$8 million over 3 years for Ontario apple, tender fruit, table grape, and wine grape growers through the Growing Future Opportunities Initiative under the Sustainable Canadian Agricultural Partnership. The funding is intended to help growers plant varieties of produce that will improve quality, production, and marketability.

The [application and guidelines](#) are available now.

Provincial Planning Statement Changes Came Into Effect on October 20th

Changes to the Provincial Planning Statement (PPS) came into effect on October 20th. The overall direction of the document is to advance housing starts with minimal obstacles. The Agricultural component of the plan has been revised to include some of the following policy changes:

- The agricultural systems approach considers whether rural lands are part of the contiguous systems.
- Prime ag lands and specialty crop lands are to be protected and mapped.
- Additional residential units will be allowed within or attached to an existing principal residence or within the vicinity, and a further separate dwelling will be permitted on the property. The units become part of the property and cannot be sold separately or severed.

You can read more about the PPS [HERE](#).

In a warming world, English sparkling wine challenges French champagne

Climate change has been hard for vineyards, but also made it possible to grow the grapes that make sparkling wine in southern England.

NOTICE OF MEETING

is hereby given that the
166TH Annual Members and Directors' Meeting
of the
Ontario Fruit and Vegetable Growers' Association
will be held in person at Hilton Niagara Falls/Fallsview Hotel
& Suites on February 18th, 2025

Election of Directors of the Association will take place as well as dealing with resolutions and any other business that may arise.

Award of Merit is our way of recognizing the outstanding contribution made by an individual or organization to our fruit and vegetable industry. This recognition may include the strategic leadership, technical input, and/or the dedication shown by this person or organization to our fruit and vegetable sector.

**AWARD OF MERIT NOMINATION FORM AND REGISTRATION
AVAILABLE AT WWW.OFVGA.ORG/AGM**

Mark your calendars

2024 ANNUAL GENERAL MEETING

Network with farmers and industry stakeholders, debate resolutions, vote on leadership elections, listen to engaging speakers and participate in educational workshops.

THE FARMER WELLNESS INITIATIVE

FREE, UNLIMITED COUNSELLING

FARMER
WELLNESS
INITIATIVE

Agriculture
Wellness
Ontario

FARMERWELLNESSINITIATIVE.CA

The Farmer Wellness Initiative provides Ontario farms with mental health support by offering free unlimited counselling for farmers, farm workers and their families, specific to the unique challenges that can be experienced by the agricultural community.

1-866-267-6255

How it Works:

Step 1 – When you call the line, you'll go through a brief intake process. You'll be asked your name, where you live and why you're calling. (Note: if you're in crisis, you'll be directed to immediate support.)

Step 2 – Within a week, you'll be connected to a counsellor that you can see on an ongoing basis by phone, video, or in person (based on availability). The mental health professionals who provide counselling are ag-informed to best serve the community.

Step 3 – Engage in counselling for as long as you need. Sessions are free and unlimited. Finding the right counsellor is important. If you'd like to be matched with someone new, you can call the line back and be matched with someone who may be a better fit – no questions asked.

What you need to know:

ELIGIBILITY

Ontario-based farmers, farm workers and their families (spouses, partners, children, dependents). This includes family members involved in the operation of the farm. Note: callers must be 16 years or older. Youth between the ages of 12-15 may utilize the service with parental consent.

All information received through counselling sessions is confidential and in accordance with the Personal Health Information Protection Act (2004).

PRIVACY

COST

Free! There is no cost for this service, and the number of sessions is unlimited.

ACCESSIBILITY

Operated by TELUS Health, you can call 1-866-267-6255, 24 hours a day, 7 days a week, 365 days a year. Available in both English and French.

OGWRI Research Spotlight

"Extreme weather is killing Canada's grapes. A new Saskatchewan-made spray could save the day"

Read the article from MacLean's here, titled *How to Rescue Canada's Wine Supply*: <https://macleans.ca/society/wine-grapes-climate-change-antifreeze/>

OGWRI Sponsors Vinequity Wine Camp 2024

[Vinequity](#) is thrilled to announce its inaugural Wine Camp called Grapes and Growth, aimed at empowering BIPOC (Black, Indigenous, and People of Colour) wine and viticulture students and professionals.

Scheduled from November 25 to November 29, this five-day camp will take place in the regions of Prince Edward County and Niagara, Ontario. Participants will have the unique opportunity to learn directly from experienced vineyard managers, winemakers and producers, engage in hands-on workshops, and explore local vineyards, fostering a deeper understanding of the wine industry.

This event is designed to be inclusive and accessible, welcoming anyone who identifies as BIPOC and resides in Ontario. This initiative reflects Vinequity's commitment to creating equitable opportunities within the Canadian wine industry.

OGWRI will be supporting two educational sessions in Vinequity's Wine Camp themed Grapes and Growth. OGWRI's sponsorship will support workshops in PEC and Niagara on rootstocks, clones, site & varietal selection, and pests & diseases, and other challenges in cool-climate vineyards.

Vinequity would like to thank all of its supporters who have contributed to making this happen, including the OGWRI. Their support is invaluable in helping to build a diverse community of wine professionals and ensuring that future leaders in the industry are representative of Canada's rich cultural mosaic.

CCOVI pest control research aims to protect Niagara vineyards

"If we can identify which insects are vectoring this [red blotch] virus, we can study their biology and enhance existing integrated pest management strategies to more effectively protect the vitality of the industry's vineyards"

CGCN-RCCV Update

Cluster Research Summaries - Year 1 (2023-24)

With the first year of the Sustainable Canadian Agricultural Partnership (SCAP) Grape & Wine Science Cluster completed, each of the activities has provided a brief update on their research done under the program in 2023-2024. Click [HERE](#) to view each research priority area's list of activity summaries.

We thank Agriculture & Agri-Food Canada, the British Columbia Wine Grape Council, Grape Growers of Ontario, Ontario Grape and Wine Research Inc., Conseil des vins du Québec, Nova Scotia Department of Agriculture, and the Grape Growers' Association of Nova Scotia, along with our various industry partners, for funding this research. For more information, please [contact us](#).

CGCN-RCCV Update

CGCN-RCCV Partners with Brock University Business Students

Pictured: CGCN-RCCV Executive Director Darien Temprile presents to Brock University's MGMT 4P90 Business Strategy class.

CGCN-RCCV is excited to be participating as an industry client this fall semester for two business courses through Brock University's Experiential Education program.

Students in the MBA Consumer Behaviour and fourth year Business Strategy courses are working with CGCN-RCCV to improve our operations while they gain valuable experience with non-profit and government organizations.

We look forward to seeing what the students come up with!

Join CGCN-RCCV Programming for Discounted Virus Testing Services

CGCN-RCCV's certification programs are designed to provide Canadian nurseries with a domestic certified clean source of high-quality, sustainable grapevine material to proudly sell to growers. Nurseries that are members of CGCN-RCCV Certification or Verification programming have access to up to **50% discounts on virus testing services**.

Diagnostic Method	Full price	CGCN-RCCV participant price	Viruses
HTS (40-vine sample)	\$700	\$350	25+ viruses of concern
PCR (5-vine leaf sample)	\$76	\$38	Leafroll-1 & 3, Red blotch, Tomato ringspot
PCR (2-vine cane sample)	\$80	\$40	Leafroll-1 & 3, Red blotch, Tomato ringspot

Please note, prices are subject to change and do not include taxes or associated travel expenses.

Funding for the 2023-24 fiscal year was maximized, and 2024-25 funding for new nurseries looking to join our programming is available on a first-come, first-served basis.

If you are a nursery interested in getting your plants virus-tested before propagation, or you are a grower/winery interested in getting some of your vines tested and then custom propagated, we encourage you to [contact us](#) for more information!

Other Updates

- Industry has prompted CGCN-RCCV to conduct a formal review of France's grapevine certification systems. This is underway with an expected completion date of March 31st, 2025. The first committee meeting will be held in early November.

October 21, 2024

Farm business not immune to cyber security threats

By Teresa Van Raay, Director, Ontario Federation of Agriculture

With the world becoming increasingly connected and digitized, cyber security is a growing concern. Criminals are targeting retailers, municipalities, healthcare providers and

critical infrastructure – and as the agriculture sector increases its reliance on sensors, data collection and online connectivity, it is also becoming a target.

In fact, the agri-food industry can be particularly vulnerable, especially at the farm level where the sector consists of many small, independent businesses with limited IT resources – and cyber security often tends to be one of those things that most people don't worry about until it happens to them or someone close to them.

That was certainly the case for us. My family and I farm near the small town of Dashwood close to Lake Huron where we raise pigs and grow garlic and field crops. An invoice email request that looked like it came from one of our suppliers turned out to be from a bad actor, and after several agricultural organizations were hit with ransomware attacks, it prompted us to take a serious look at both the risks to our farm business and how we could protect ourselves.

Ransomware is where hackers lock down a system by encrypting its data and essentially holding it hostage until a ransom has been paid. Data breaches, where criminals steal customer, business or financial information, are also a common form of cyber attack.

In the agri-food sector, cyber security threats come from three main areas.

Opportunistic cyber criminals look for the so-called low-hanging fruit and choose targets that will get them the maximum return for the lowest time investment. State-sponsored hacking teams from other countries actively work to compromise sensors and devices across the entire food supply chain, from farms to food processing and ports. Activists resorted to cyber security tactics in Ontario for the first time in 2023 to target a farm.

On our farm, we ended up bringing in some IT expertise to conduct an audit of all our systems, which we'd been piecing together for close to 40 years. It was an eye opening experience for us.

Even though we are a small business, to us, the impact of an attack would be devastating given how much we rely on the internet and digital connectivity on everything from accepting payments in our on-farm store to running and monitoring systems in our barn.

So we've taken action on several fronts, including backing up our data in multiple places and adding a guest wifi that is available to anyone coming to the farm but doesn't connect them to our main network.

Other things we learned were to pay closer attention to emails or phone calls requesting financial details or passwords that appear legitimate but turn out not to be, and to never send credit card details by email, for example.

October is cyber security month, making it a great time to start thinking about how your business could be vulnerable and how you might be able to protect yourself. There is no such thing as zero risk, but there are some relatively simple steps that can be taken right away to reduce that risk:

Make sure your hardware and software are kept up to date and that you're using strong passwords that aren't shared between employees. Remove access from employees who no longer work for you.

Back up your most important information regularly and store it in a safe place that is not connected to your main systems.

Never use public WiFi to check your on-farm systems when you're away. Instead, buy and use a Virtual Private Network (VPN) or connect to your monitoring apps using the cellular data on your device.

Don't click on un-verified links in emails or text messages, even if they look legitimate, and never reveal sensitive business or personal information to unsolicited callers. It pays to be suspicious - always check back with a caller who says they are from a financial services provider.

Know which devices, sensors, computers, servers, mobile devices, automated equipment, environmental control systems, financial systems, and other hardware in your on-farm networks are connected and know who to call if something goes wrong.

Every farm business is different, and you will need a plan specific to your needs and your situation, but taking any kind of preventative action will reduce your risk in both the short and long-term.

For more information and media inquiries, contact:

Chris Thomson, Communications Coordinator
