th ANNUAL REPORT

Year ending January 31, 2015

Grape Growers

Ontario-grown grape products will be demanded at home and recognized internationally.

ACCOUNTABILITY

We are accountable to the grape growers for decisions made and for the rationale upon which these decisions are made.

INNOVATION

We support innovation through research, new technology and continuous improvement of services provided to the grape growers.

QUALITY

We promote quality by developing and setting standards for vineyard management for the grape growers.

RESPECT

We understand the value of people to our organization's success. As such, we trust, respect and value the opinions of all employees and grape growers.

OUR MISSION

To achieve sustainable growth and profitability by creating an improved environment for Ontario-grown grape products.

OUR VALUES

and a

RESPONSIVENESS

We are responsive to the needs of the grape growers in a timely manner so that they are supported in their activities which improve their livelihood and economic health.

SERVICE

We exist to serve grape growers by providing them with current, informative and supportive services in order to maintain and grow the industry in Ontario.

We strive to make clear the true value of our business and promote strong relationships that are crucial to making this industry grow and thrive in a healthy marketplace.

SHARED STAFF

2014–2015 GROWERS' COMMITTEE

On behalf of the Government of Ontario and the Ministry of Agriculture, Food and Rural Affairs, I am pleased to extend greetings to Ontario's grape growers.

I am proud of Ontario's grape and wine sector. It is a valuable part of Ontario's economy and has potential for growth. This potential is especially important as we consider ways to meet the Premier's Agri-Food Challenge – to double the agri-food sector's growth rate and create 120,000 jobs by 2020.

The year 2014 was a busy one for the grape industry. While it was a challenging growing season and the crop was smaller, I am pleased to know that grape quality remained high.

The programs under the government's 2009 Wine and Grape Strategy will be coming to a close this year. Over the past year, my ministry has been working closely with industry leaders to define the details of a renewed strategy. I appreciate the great collaboration that took place within the sector and with our government to build on the earlier strategy's successes. Details of the renewed strategy will be shared with you in the very near future.

Part of the renewed Wine and Grape Strategy has already been successfully put in place: the sale of Vintners Quality Alliance (VQA) wine at farmers' markets. By the end of 2014, there were 78 Ontario wineries selling their VQA wines at 139 Ontario farmers' markets. This pilot project has improved consumers' access to VQA wines, and sales of VQA wines at farmers' markets have reached over \$1 million. Our government will continue to closely monitor this pilot project as it moves into its second year.

In the meantime, grape growers continue to benefit from support provided through the final year of the Ontario Vineyard Improvement Program (OVIP).

success in 2015.

Kindest regards,

Honourable Jeff Leal Minister of Agriculture, Food and Rural Affairs

GREETINGS FROM THE HONOURABLE JEFF LEAL

Congratulations on your achievements in 2014. I wish you all the very best for

GREETINGS FROM THE HONOURABLE BRADLEY

As the Member of the Legislative Assembly of Ontario for St. Catharines, it is my pleasure to again welcome everyone to the Annual General Meeting of the Grape Growers of Ontario. Those of us who reside in this province, and particularly those of us who reside in areas where our grapes are grown and our wine is produced, are very much aware of the contribution that the grape and wine industry makes to the economic prosperity of our province, both directly and indirectly.

Those who established the Ontario Grape Growers Marketing Board over six decades ago are responsible for the impressive progress that has been experienced in this area and have contributed to the status of Ontario as an internationally acclaimed wine region. By producing high quality grapes, you have ensured that vintners have been able to produce excellent wines which consistently win prestigious international awards. This is a testament to the commitment, capability and knowledge of Ontario grape growers.

Although our growers have had to confront many challenges over the years, the success that has been achieved in the grape and wine industry in Ontario is evidenced by the fact that the industry has grown and prospered, and for this, we are grateful to the Grape Growers of Ontario and your many dedicated members.

With very best wishes for continued success in 2015, I am

Yours sincerely,

Jim Bradley, MPP Chair, Ontario Wine Secretariat

On behalf of the Government of Canada, I'd like to thank Grape Growers of Ontario for your dedication to this dynamic sector for the past 67 years.

Ontario's grape sector is an important contributor to the province's and Canada's economy, and the future continues to look bright. Your world-class wine industry generated almost \$400 million in sales in 2013. Ontario is the biggest wine volume producer in Canada. The sector provides thousands of jobs through the value chain and, in addition to wines, delivers delicious juices and other grape products to consumers.

Our Government is helping to keep the Ontario grape industry competitive through investments in innovation. Great work is happening at the PARC-Summerland Research Centre to combat grape vine trunk diseases, and develop and implement effective control strategies for Canadian growers. We've improved access to new safe and effective crop protection tools under the Minor Use Pesticides Program, which has delivered over 1,500 new uses since its inception, including many for Ontario grapes.

Thanks to our joint investments under Growing Forward 2 of \$417 million over five years, the governments of Canada and Ontario are supporting proactive initiatives from innovation, to food safety, to environment, to exports.

Once again, thank you for your commitment to Ontario's grape sector and our economy. I wish you a successful year ahead.

Gerry Ritz, PC, MP Minister of Agriculture and Agri-food

GREETINGS FROM THE HONOURABLE GERRY RITZ

2014 GRAPE KING

KEVIN BUIS

Kevin Buis was crowned Grape King at his family's Glenlake Vineyards in Niagara-on-the-Lake on September 17, 2014. Kevin grew up on the family farm, attended Denis Morris Secondary School and then graduated with an engineering degree from the University of Guelph in 1986.

Following university, Kevin joined his brother working on the farm which was started by their parents Peter and Margaret in 1957. His parents retired in the late 1990's and Kevin and his brother Peter are together carrying on the family business which now consists of 400 acres of 14 varieties of wine grapes and some tender fruit.

$\widehat{}$

I have learned from my family and from all of the previous men and women who have worn this chain, the importance of contributing to our community and to the agriculture industry. The growers have long known the importance of good policy and the impact on the bottom line of the farm gate.

≽

Kevin, his wife Jacqueline and their family look forward to being ambassadors for Ontario's grape growers over the coming year.

The harvest of 2014 will be fondly remembered and described by two words: "Polar Vortex". Record cold temperatures across Ontario and all grape growing regions resulted in winter injury to some varieties. The 2014 harvest was much reduced compared to 2013 and was recorded at 52,716 tonnes, comprised of 2,164 tonnes of juice grapes and 50,552 tonnes of wine grapes. The total farm gate value of the grape crop was \$62.3 million. While it was a much smaller crop and valued significantly less than last year, the 2014 vintage produced by growers was another quality crop.

Following the completion of a successful two-year pricing agreement, the Grape Growers of Ontario (GGO), Wine Council of Ontario (WCO) and Winery and Grower Alliance of Ontario (WGAO) reached another two-year pricing arrangement in July 2014. The agreement included price increases for both White and Red Hybrids, White Vinifera and most Red Vinifera. While the increases are modest, the GGO also achieved an extension to Plateau Pricing and flexibility for processors by removing all hybrids from the sugar schedule. It was also agreed that all parties need to meet early in 2015 to begin discussions for pricing opportunities for 2016 and beyond.

Juice Grape pricing negotiations with the WGAO were completed on August 14, 2014 and also resulted in a two-year agreement with a 1.5% increase in 2014, and a 1% increase to all juice grapes in 2015.

2014 was the final year of the Ontario Vineyard Improvement Program (OVIP) which has been a true success story for grape growers, processors, and the Government of Ontario. To date, both the Government of Ontario and grape growers have invested \$31,068,981 million into the grape industry.

The Government of Ontario also announced late last year the renewal of the five-year \$75 million Wine and Grape Strategy. Throughout 2014, working with the Wine Council of Ontario, Winery and Grower Alliance, Grape Growers of Ontario, and government staff, the industry has collaborated on setting measurable targets for the programs over the next five years. In addition to government program review meetings, the Grape Growers of Ontario provided input and presented our views to Premier Wynne's Advisory Council on Government Assets. The objective of this panel is to "make Ontario's assets work better for taxpayers and consumers." Our presentation to the panel emphasized the need to maintain and grow access for Ontario-grown product at the LCBO, and to ensure any recommendations contemplated by the panel would ensure our industry remains competitive with a focus on growth targets.

Your Board's work reaches far beyond negotiating prices and each Director participates actively on many committees from governance, marketing, VQAO, and Information Technology (IT).

2014 will also be noted as a year of great loss in the grape growing community. In particular, we were saddened by the sudden passing of industry giant, Howard Staff. Howard was a leader in the grape and wine industry, and left an indelible mark on our industry. Tom Greensides, former GGO Board Chair, and Jack Forrer, former Board Director, who were pioneers in the grape growing industry also passed away this year.

Our success as an organization is reflected through the ongoing dedication of the Board of Directors, Grower Committee members and staff. I thank you for your commitment to the Grape Growers of Ontario.

Bill Her,

Bill George Chair, Grape Growers of Ontario

MESSAI DEBBIE

"Killer cold" weather will be how 2014 will be recorded in the grape growing history annals. On average, the winter of 2014 was 3 degrees colder than normal with extreme cold affecting many vineyards across Ontario. Despite the challenges of weather, grape growers produced a 52,716 tonne crop that included 2,164 tonnes of juice grapes. Incredible odds were against growers this year; however, a superb vintage will be available for consumers in the coming months.

Growing the Ontario market for Ontario wine continues to be our focus. The renewed Grape and Wine Strategy announced by the Premier of Ontario in December 2013 included a directive to industry to work towards establishing measurable goals as part of the new program framework. The work of many sub-committees, from marketing to program development, will ensure the effective use of the \$75 million, five-year funding program. We thank the Government of Ontario and the Ministry of Agriculture, Food and Rural Affairs for their ongoing commitment to grape growers across the province.

Government policies play an important role with a direct impact on the success of the grape and wine industry. The GGO was invited to participate in a number of government policy reviews including the Alcohol and Gaming Commission of Ontario (AGCO) "Regulatory Modernization in Ontario's Beverage Alcohol Industry". In September, the AGCO announced a number of reforms affecting the wine industry that included a provision for post '93 wineries to be able to blend wine for sale through the LCBO or Direct Delivery to Licensees.

In May, the province of Ontario launched a new program for the sale of VQA Wines at Farmers' Markets across the province. This two-year pilot program was developed to allow more access for consumers to Ontario VQA wines. Over 100 Farmers' Markets participated in the program and 67 local wineries.

The kick off to the Grape and Wine Festival each year is the Grape Growers of Ontario Celebrity Luncheon. This year, celebrated Canadian athlete Rick Hansen provided an inspiring talk to over 400 guests. We continued to focus on building the grower story by sponsoring a number of industry events: International Cool Climate Chardonnay Celebration (i4c), Insight Summit, Cuvée Awards, Grape and Wine Festival, media events and the Ontario Wine Awards. Social media continued to be a focus of the GGO's marketing plan and, in September, Gabby Grape, the new Grape Mascot, launched her YouTube video. The industry bade a fond farewell to Mr. Grape who participated in 38 Grape and Wine Festival parades.

eGrape, after two years of development, went live for the harvest of 2014. This next generation of Vitis and Setgo systems was seamlessly introduced and welcomed by growers and processors. In addition to real time accurate data for users, the internal functionality has created a more efficient system for staff. Data collection will continue to be the cornerstone of the GGO's strategic focus.

As we review our accomplishments over the past year, the overall success of the organization is without a doubt a reflection of the collective effort of Board leadership, Growers' Committee participation and a dedicated staff.

Debbie Zimmerman CEO, Grape Growers of Ontario

MESSAGE FROM YOUR CEO **BIE ZIMMERMAN**

YEAR IN REVIEW

2014 WEATHER REPORT

The 2014 harvest produced a crop of 52,716 tonnes, comprised of 2,164 tonnes of juice grapes and 50,552 tonnes of wine grapes, valued at \$62.3 million.

Grapes "naturally frozen" on the vine produce Ontario's premier Icewine. This year 3,751 tonnes were left hanging for Icewine, which may produce between 560,000 and 600,000 litres. Temperatures dipped below -8°C in early January 2015 creating ideal conditions for Icewine harvest.

VQA wine sales in Ontario have reached 16.0 million litres and \$280 million in annual sales in 2013-2014, up from 15.9 million litres the year before. Ontario's VQA wines account for 9.33% of sales and ICB/non-VQA wine adds another 29.36%, giving a total of 38.69% of wine sold in Ontario. Each year wineries are selling more 100% Ontario ICB/non-VQA wine.

Ontario Wineries by Region

Lake Erie North Shore	17
Niagara Peninsula	98
Prince Edward County	37
Emerging Regions	26
Total Ontario Wineries (including Virtual wineries)	178

53% of acres are white grapes

47% of acres are red grapes

2014 had characteristic growing degree day accumulation and comprised normal to slightly above normal seasonal rainfall. This growing season was noteworthy for its warm spring, cool summer, and warm autumn.

January through March was, on average, 3°C cooler than normal with some extreme cold temperatures reaching killing temperatures for primary buds. April temperatures started normal to slightly above and declined to below normal at the end of the month. Below normal temperatures continued through the first half of May. Temperatures from end of May through June were above normal. Overnight lows deviated less than daytime highs in spring.

2014 wrapped up with normal temperatures to start November followed by a period of below normal temperature in mid-Temperatures between July and August were below November. December proved to be warmer than normal normal. September and October returned to above normal with daytime highs exceeding 5 degrees above normal. The temperatures. Growing Degree Days (GDD) accumulated accumulation of Nov-Dec 2014 icewine hours averaged 29 hours across Niagara, 51 hours across the Lake Erie North quickly and steadily during the warm spring. The cool summer temperatures slowed GDD accumulation to maintain near Shore appellation and 62 hours across the Prince Edward normal accumulated GDD for the season. County appellation.

In terms of rainfall, the 2014 growing season commenced This season provided some challenges but the growing with above-normal April totals, except for the Lake Erie season still produced quality yields for wine and icewine from North Shore appellation which had near normal rainfall. The the many practiced viticulturalists and winemakers across the month of May brought slightly above normal rain to Ontario Ontario appellations. appellations.

For more detailed weather data, management tools and weather Eastern Niagara and Prince Edward County received above reports throughout the year, visit vineinnovations.com normal rainfall during June, while rainfall in Western Niagara sponsored by the Grape Growers of Ontario.

Seasonal Accumulation of Base 10°C GDD

and Lake Erie North Shore was normal to slightly below. July rainfall was above normal for all appellations.

Niagara received below normal rainfall for both August and September. However, the Lake Erie North Shore appellation had above normal rainfall in September. The month of October returned to normal rainfall in Niagara West and Prince Edward County while Niagara East and Lake Erie North Shore received slightly below normal rainfall. Below normal rainfall led to more favourable harvest conditions for September and October compared to the wetter conditions last year.

TABLE I

TABLE I presents the production and disposition of grapes from 2010 through 2014.

Processing Prices

Another two-year price agreement was reached on July 2, 2014 on Classes 5 – 10f grapes for 2014 and 2015. Modest price increases were achieved for most varieties and an additional two years of plateau pricing framework have been secured for Riesling, Chardonnay, Cabernet Franc and Cabernet Sauvignon. Classes 1, 2 and 3 prices were set through negotiations on August 14, 2014.

Icewine and Late Harvest Grapes

The minimum price to be paid for all grapes left on the vine to be

HOME WINEMAKING, DISTILLING & SHERRY PLATEAU PRICING

used for Icewine is 125% of the price based upon normal harvest at the appropriate sugar level determined by samples taken at regular harvest time.

Late harvest hybrid and vinifera juice at 26° Brix	\$ 4.58 per litre
Hybrid icewine juice at 35° Brix	\$ 9.05 per litre
Vinifera icewine juice at 35° Brix	\$19.00 per litre

The minimum price established for each class of grapes sold for processing in 2014 compared with the 2013 prices is shown in TABLE II.

The Grape Growers of Ontario, together with the Honourable Dave Levac, Speaker of the Ontario Legislative Assembly, hosted the 36th Annual Legislative Wine Tasting event at Queen's Park. The two wines chosen as the official wines of Ontario's Legislative Assembly for 2015 are: Fielding Estate Winery 2013 Pinot Grigio and Burning Kiln Winery 2013 Strip Room.

Burning Kiln Winery: Patti Fixter, Karen Matthews, Grape King Kevin Buis, Honourable Dave Levac MPP, and Emily Shoff

Fielding Estate Winery: Honourable Dave Levac MPP, Heidi Fielding, and Grape King Kevin Buis

TABULATION OF GROWERS WITH PRODUCTION

TABLE VI

The number of growers with production registered with the Grape Growers of Ontario in 2014 decreased by 6.4% from 469 in 2013 to 439 in 2014.

WINE SALES IN ONTARIO

Table VII below shows the five-year history of wine sales in Ontario. Total wine sales in Ontario grew by 3.2% to 172 million litres in 2014. Ontario (VQA & NON-VQA/ICB) wine sales increased by 3.4% to 66.5 million litres. Imported wine sales increased by 3.2% to 105 million litres, while out-of-province wine sales in Ontario decreased by 16.5% to 0.4 million litres.

BLENDING MATERIALS

Table IX shows the quantity of blending grape product imported into Ontario over the last five years. The Ontario Wine content and Labelling Act (WCLA) required a winery that uses imported grapes or grape product to use an average of 40% or more of grapes grown in Ontario up to March 31, 2014. The requirement of 25% Ontario grape content in a bottle of wine continues to be in effect. Wine imported for blending purposes decreased by 9.4% from 24 million litres to 21.9 million litres. Concentrate decreased by 37.0% from 6,136 equivalent tonnes to 3,868 tonnes in 2014. Grape juice is down 1.8% from 921 equivalent tonnes to 904 equivalent tonnes. In total, blending material was down 13.5% from 39,309 equivalent tonnes in 2013 to 33,986 equivalent tonnes in 2014.

TABLE IX – Blending Materials Imported into Ontario

	2010	2011	2012	2013	2014
Wine (litres)	25,504,088	23,930,798	22,082,863	24,188,300	21,909,911
Concentrate (equivalent tonnes) at 165 litres per tonne	4,512	3,615	8,579	6,136	3,868
Grape Juice (equivalent tonnes) at 750 litres per tonne	1,975	982	1,084	921	904

Statistical data provided by LCBO

TABLE X presents the quantity of importation of wine categories from 2010-2014. The total imports of wine categories in Canada increased 2.4% from 308 million litres in 2013 to 315 million litres in 2014. The importation of sparkling wine increased by 12.0% in 2014.

In 2014-15, the Grape Growers of Ontario continued to engage consumers and industry through social media: Facebook, Twitter, Pinterest, and Youtube with The Grape Escape with wineONtour.ca video featuring Gabby Grape, the new mascot of the Niagara Wine Festival. Grower members from District 5 and District 6 were promoted through sponsorships to Essex Pelee Island Coast Wine Association and Prince Edward County Winegrowers' Association. The GGO continued with a series of activities such as Celebrity Luncheon, Grape Stomp, Grape King Float, and Legislative Wine Tasting. Congratulations to Burning Kiln Winery and Fielding Estate Winery whose wines were chosen as the official wines to be served at the Ontario Legislature for 2015, and to Ron Koop, Koop Farms, on receiving the Cuvée Award of Excellence in Viticulture. The GGO continues to be a proud sponsor of the Niagara Grape and Wine Festival.

ONTARIO VINEYARD IMPROVEMENT PROGRAM (OVIP)

OVIP: PRODUCER SUPPORT COMPONENT

The Ontario Vineyard Improvement Program (OVIP) - Producer Support Component (PSC) is an application based, cost-share program funded by the Ontario Ministry of Agriculture, Food and Rural Affairs to assist eligible growers to transition to higher demand grape varieties and improve grape guality in line with the industry varietal plan.

Intake 3 of the OVIP-PSC program was fully subscribed by growers and provided support for investment in vineyard innovation. Of the applications received, 82% were from the Niagara Region, 0.5% from Essex County and 1% were from Prince Edward County. The remaining 16.5% of applications came from Ottawa Region, Norfolk County, Lennox & Addington County, Frontenac County, Stormont, Dundas and Glengarry, Dufferin, Elgin, and York Region.

Growers are investing in a variety of improvements including:

- 52% for improved viticulture practices (e.g. equipment);
- 13% for vine trellis systems;
- 12% for vineyard preparation including tile drainage systems/upgrades and land grading, and land preparation;
- 11.5% for cold injury reduction (e.g. wind machines);
- 8% for pest management (e.g. bird netting).

TOTAL INVESTMENTS* BY GROWERS AND THE ONTARIO GOVERNMENT THROUGH THE OVIP PROGRAM TO DATE ARE:

Government Investment	Grower Investment	Total Investment
\$9,744,592	\$21,324,390	\$31,068,982

* Includes Intakes 1,2,3, and preliminary Intake 4 - Intake 4 investment amounts include final completed projects and the maximum eligible amounts of ongoing projects. There is currently an over commitment on projects to allow for expected savings on project costs.

OVIP: Industry Support Component

The OVIP Industry Support Component is a fund provided by the Ontario Ministry of Agriculture, Food and Rural Affairs and administered by the GGO through a management committee to assist the sector as a whole with access to additional technologies and capacities to help improve grape production in the vineyard. Projects for 2013-2014 include:

- Light Deterrent Bird Scaring Research
- Weather Information
- Winter Injury Bud Sampling
- Leaf Roll and Red Blotch Survey
- Brown Marmorated Stink Bug Research
- Third Party Testing Dispute Resolution
- Industry Insight Conference
- International Cool Climate Chardonnay Celebration

ONTARIO GRAPE AND WINE RESEARCH INC. (OGWRI)

The objective of OGWRI is to enhance the profitability and sustainability of the Ontario grape and wine industry through directed and coordinated financing of research and development activities. Matthias Oppenlaender is Chair, and the Board of Directors has representatives from GGO, Wine Council of Ontario, and Winery and Grower Alliance of Ontario. A technical committee establishes annual research priorities and reviews research project proposals. Projects must fall into one of three research pillars of viticulture, oenology and market research. The following projects are currently approved for funding or have been completed over the previous year:

Growers are investing in a variety of improvements including:

- Establishing best practices guidelines to optimize grapevine winter hardiness;
- Management of sour rot and volatile acidity in grapes;
- Best management practices for control of nuisance flies dispersing through the Ontario Grape and Wine Industry;
- Profiling wastewater solutions opportunities for Ontario wineries;
- Adapt viticulture in Ontario to climate change and drought stress; • Development and validation of reliable, effective and affordable diagnostic technologies to enhance productivity and international competitiveness of Ontario grape and wine industries;
- The incidence of potential leafhopper vectors of Grapevine red blotch disease in Ontario viticultural regions and evaluation of their vectoring potential.

All completed projects and material are available at the Ontario Grape and Wine Research Inc.'s newly developed website: www.ontariograpeandwineresearch.com

CROP PROTECTION REPORT

In 2014, the grape industry obtained registration of a number of pesticides through the efforts of Jim Chaput, Minor Use Coordinator, OMAFRA, and Pest Management Regulatory Agency (PMRA). Dr. Wendy McFadden-Smith, OMAFRA, assisted with pest management issues related to minor use registrations and represented grapes at the Minor Use Priority Setting Workshop in Ottawa to highlight priorities for tree fruit and grapes. Wendy also represented the grape industry at the Fruit Technical Working Group which is responsible for the inclusion of products in Publication 360 "Guide to Fruit Production".

Brown Marmorated Stink Bug and Spotted Wing Drosophila have been reported throughout Ontario. Neither pest has caused documented economic losses to grapes to date. OMAFRA continues to monitor for the presence of these pests and collaborative research projects among OMAFRA, University of Guelph, Vineland Research and Innovation Centre, and Agriculture and Agri-Food Canada continue to investigate the biology, economic impact and management of these invasive species.

Mancozeb and metiram (Polyram) fungicides are currently being reviewed by PMRA. Neonicotinoid insecticides (Admire, Assail, Clutch) are also targeted for their potential impact on bee mortality. The GGO has provided input to the Pest Management Centre to try to ensure that we retain both fungicides and insecticides as crucial tools for pest management.

The following are new product registrations, label changes and emergency registrations for 2014:

Fungicides:	Botector, Fullback 125SC, Nova Fu
Miticide:	Nealta
Herbicide:	Frontier Max Herbicide
Minor use emergency	registrations for Spotted Wing Dro

GRAPE GROWERS OF ONTARIO

STATEMENT OF CASH FLOWS - YEAR ENDED JANUARY 31

NOTES TO THE FINANCIAL STATEMENTS - YEAR ENDED JANUARY 31

1. Nature of Operations

The Grape Growers of Ontario is a board which operates under the Farm Products Marketing Act, established for the purpose of marketing and promoting Ontario grapes for processing. The Board is a not-for-profit organization incorporated without share capital under the laws of Ontario, and is exempt from income taxes under the Income Tax Act.

2. Significant Accounting Policies

The financial statements were prepared in accordance with Canadian accounting standards for not-for-profit organizations in Part III of the CICA Handbook and include the following significant accounting policies:

Financial Instruments

Measurement

The board initially measures its financial assets and liabilities at fair value, except for certain non-arm's length transactions.

Financial assets or liabilities obtained in related party transactions with a person or entity whose sole relationship with the Board is in the capacity of management are accounted for in accordance with financial instruments.

The board subsequently measures all of its financial assets and financial liabilities at amortized cost.

Financial assets and liabilities measured at amortized cost include cash, guaranteed investment certificates, accounts receivable, contributions receivable, and amounts due from related parties, accounts payable and accrued liabilities, government remittances payable and deferred contributions.

Impairment

Financial assets measured at cost are tested for impairment when there are indicators of impairment. Previously recognized impairment losses are reversed to the extent of the improvement provided the asset is not carried at an amount, at the date of the reversal, greater than the amount that would have been the carrying amount had no impairment loss been recognized previously. The amounts of any writedowns or reversals are recognized in excess of revenues over expenses for the year.

Fund Accounting

The board follows the deferral method of accounting for government and industry contributions and reports using fund accounting.

The board follows the restricted fund method of accounting for grower contributions. Revenues and expenses related to marketing operations and administrative activities are reported in the operating fund. Revenues and expenses related to research activities are reported in the research fund. Fees and payments collected from growers and processors and contributed to the Ontario Grape and Wine Research Inc. (OGWRI) are reported in the Ontario Grape and Wine Research Fund. The operational reserve fund reports the net assets which have been internally restricted by the board as an operational reserve.

GRAPE GROWERS OF ONTARIO

Revenue recognition

The Grape Growers of Ontario has the authority to collect licence fees under the provisions of the Farm Products Marketing Act. Fees are recognized as the crop is received, weighed and graded by processors and collection is reasonably assured.

Amortization

Property and equipment which are shared with other marketing boards are capitalized by Grape and Tender Fruit (Ontario) Limited. The amortization charge for property and equipment is reported according to the cost sharing arrangement by each benefiting Board.

Investments

Investments in subsidiaries are accounted for using the cost method.

The cost method is a basis of accounting for investments whereby the investment is initially recorded at cost; earnings from such investments are recognized only to the extent received or receivable.

Use of estimates

Management reviews the carrying amounts of items in the financial statements at each statement of financial position date to assess the need for revision or any possibility of impairment. Many items in the preparation of these financial statements require management's best estimate. Management determines these estimates based on assumptions that reflect the most probable set of economic conditions and planned courses of actions.

These estimates are reviewed periodically and adjustments are made to excess of revenue over expenses as appropriate in the year they become known.

Items subject to significant management estimate include the allowance for doubtful accounts.

3. Salaries and benefits

GRAPE GROWERS OF ONTARIO

6. Guaranteed investment certificates

The Board has guaranteed investment certificates that mature between 2015 and 2016 and earn interest between 1.40% and 2.85% (2014 – 1.50% and 2.50%)

7. Accounts receivable

	2015	2014
Accounts receivable	\$ 72,401	\$ 115,279
Allowance for doubtful accounts	(1,663)	-
	\$ 70,738	\$ 115,279

8. Related Party Transactions

The Grape Growers of Ontario exercise significant influence over Ontario Grape and Wine Research Inc. (OGWRI), an entity incorporated to perform research and development activities related to the grape and wine industries. Transactions with OGWRI include recovery of salaries (disclosed in Note 3) and contributions to research projects (disclosed in the statement of changes in internally restricted net assets).

The Grape Growers of Ontario is related to Grape & Tender Fruit (Ontario) Limited (GTFOL), a jointly controlled enterprise who operates the marketing boards' shared offices and who owns the shared land and building.

The Grape Growers of Ontario proportionate share of GTFOL is as follows:

	2015	2014
Assets	\$ 337,573	\$ 355,755
Liabilities	145,726	163,908
Net Assets	\$ 191,847	\$ 191,847

Expenses include a \$133,234 (2014 - \$156,233) charge for the board's share (50% (2014 - 50%)) of management operation costs incurred during the year by GTFOL. These amounts are recognized in the form of allocated rent payments at the exchange amount by the Board, and represent the Board's share of the revenue and expenses of the joint venture.

Amounts due from related parties:

2015	2014
\$ 125,170	\$ 137,997
-	46,895
\$ 125,170	\$ 184,892

Grading fees payable	283,550	253,951
	\$ 347,874	\$ 372,947

11. Financial Instruments

The board is exposed to various risks through its financial instruments. The following analysis provides a measure of the board's risk exposures and concentrations at January 31, 2015:

Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The board's main credit risks relate to its accounts receivable. The board provides credit to its growers in the normal course of its operations.

Market risk

Market risk is the risk that the fair value of expected future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk. The board is mainly exposed to interest rate risk.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The board is exposed to interest rate risk with respect to its fixed rate guaranteed investment certificates. Given the composition of financial instruments, the board is subject to a fair value risk.
